FortiToken One-Time Password Token

Available in:

Cloud

Enable two-factor authentication with FortiToken Mobile (FTM) One-Time Password (OTP) Application with Push Notifications or a Hardware Time-Based OTP Token

Overview

Fortinet FortiToken Mobile (FTM) and hardware OTP Tokens are fully integrated with FortiClient, protected by FortiGuard, and leverage direct management and use within the FortiGate and FortiAuthenticator security platforms. Fortinet two-factor authentication solutions are easy to manage and easy to use.

PRODUCT OFFERINGS

FortiToken Mobile

FortiToken Mobile is an OATH compliant OTP generator application for the mobile device, supporting both time-based (TOTP) and event-based (HOTP) tokens.

FortiToken 200/200CD

FortiToken 200 is part of Fortinet's broad and flexible two-factor authentication offering. It is an OATH compliant, TOTP. It is a small, keychain-sized device that offers real mobility and flexibility for the end user.

There is no client software to install. Simply press the button and the FortiToken 200 generates and displays a secure one-time password every 60 seconds. The password verifies user identity for access to critical networks and applications. The LCD big screen of the rugged FortiToken 200 is much easier to read than other OTP tokens. There is an indicator on the screen displaying the time left until the next OTP generation. FortiToken 200CD tokens are shipped with an encrypted activation CD for the ultimate in OTP token seed security.

FortiToken 220

The FortiToken 220 OTP token form factor is a mini credit card that fits into a wallet. The card is also shipped with a pre-cut hole for a keyring.

HIGHLIGHTS

Convenient, Strong Authentication

FortiToken is the client component of Fortinet's highly secure, simple to use and administer, and cost-effective two-factor solution for meeting strong authentication needs. This application makes Android, iOS, and Windows mobile devices behave like a hardware-based OTP token without the hassle of having to carry yet another device. Push notification shows details on the mobile device to approve or deny with one tap.

Alternatively, hardware-based OTP tokens can be used to prevent users' passwords from being stolen via phishing, dictionary, and brute-force attacks.

Ultra-Secure Token Provisioning

FortiToken Mobile is simple to use and administer and provision for the system administrator. The token seeds are generated dynamically, minimizing online exposure. Binding the token to the device is enforced and the seeds are always encrypted at rest and in motion.

Privacy and Control

FortiToken Mobile cannot change settings on a phone, take pictures or video, record or transmit audio, or read or send emails. Further, it cannot see browser history, and it requires permission to send notifications or to change any settings.

Additionally, FortiToken Mobile cannot remotely wipe a phone. Any visibility FortiToken Mobile requires is to verify the OS version to determine app version compatibility.

While FortiToken Mobile cannot change any settings without permission, the following permissions are relevant to FortiToken Mobile operations:

- Access to camera for scanning QR codes for easy token activation
- TouchID/FaceID used for app security
- Access to the internet for communication to activate tokens and receive push notifications
- "Send Feedback by Email", to automatically populate the "Sender" field
- Internally share files between applications to prepare an attachment to be sent by email for "Send Feedback by Email"
- FortiToken must keep the phone awake while it is upgrading the internal database to avoid data corruption

Leverages Existing Fortinet Platforms

Besides offering out-of-the-box interoperability with any time-based OATH compliant authentication server such as FortiAuthenticator, FortiToken can also be used directly with FortiGate Next-Generation Firewalls, including with high availability configurations.

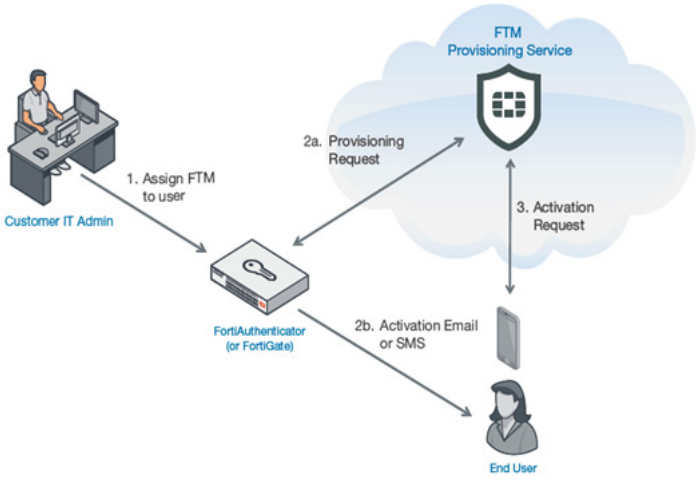
FortiGate has an integrated authentication server for validating the OTP as the second authentication factor for SSL VPN, IPsec VPN, captive portal, and administrative login. This eliminates the need for the external RADIUS server that is typically required when implementing two-factor solutions.

Online Activation with FortiGuard®

FortiToken tokens can be activated online directly from FortiGate or FortiAuthenticator using the FortiGuard Center. This maintains token seeds in a managed service repository. Once the seeds are activated, they can no longer be accessed from FortiGuard, ensuring they are safe from compromise. Alternatively, Fortinet offers an encrypted activation CD solution.

ADVANTAGES

- Unique token provisioning service via FortiGuard™ minimizes provisioning overhead and ensures maximum seed security
- Perpetual token license and unlimited device transfers eliminate annual subscription fees
- Scalable solution leveraging existing end-user devices offers low entry cost and TCO
- Reduces costs and complexity by using an existing FortiGate as the two-factor authentication server
- Zero footprint solution



MAIN FEATURES

FortiToken Mobile

- OATH time- and event-based OTP generator
- Login details pushed to phone for one-tap approval
- Patented cross platform token transfer
- PIN/Fingerprint protected application
- Copy OTP to the clipboard
- OTP time-interval display
- Serial number display
- Token and app management
- Self-erase brute-force protection
- Apple watch compatibility

FortiToken Hardware Devices

- Integrated with FortiClient™ and protected by FortiGuard
- OATH TOTP compliant
- Large, easy-to-read, LCD display
- Long-life lithium battery
- Tamper-resistant/tamper-evident packaging

SUPPORTED PLATFORMS

FortiToken Mobile

- iOS (iPhone, iPod Touch, iPad), Android, Windows Phone 8, 8.1, Windows 10, and Windows Universal Platform
- WiFi-only devices supported (for over-the-air token activation)

FortiToken Hardware Devices

- FortiOS 4.3 and up
- FortiAuthenticator — all versions

SPECIFICATIONS

	FORTITOKEN 200B/ 200BCD	FORTITOKEN 220
Onboard Security Algorithm	OATH-TOTP (RFC6238)	OATH-TOTP (RFC6238)
OTP Spec	60 seconds, SHA-1	60 seconds, SHA-1
Component	6-digit high contrast LCD display	Built-in button, 6-character LCD screen, Globally unique serial number
Dimensions (Length x Width x Height)	61.5 × 27.5 × 11.5mm	68 × 38 × 1 mm
Hardware Certification	RoHS Compliant	RoHS, CE, FCC
Operating Temperature	14–122°F (-10–50°C)	32–122°F (0–50°C)
Storage Temperature	-4–158°F (-20–70°C)	14–140°F (-10–60°C)

ORDER INFORMATION

Product	SKU	Description
FortiToken Software License Key	FTM-ELIC-5	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 5 users. Electronic licence certificate.
	FTM-ELIC-10	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 10 users. Electronic licence certificate.
	FTM-ELIC-20	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 20 users. Electronic licence certificate.
	FTM-ELIC-50	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 50 users. Electronic licence certificate.
	FTM-ELIC-100	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 100 users. Electronic licence certificate.
	FTM-ELIC-200	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 200 users. Electronic licence certificate.
	FTM-ELIC-500	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 500 users. Electronic licence certificate.
	FTM-ELIC-1000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 1000 users. Electronic licence certificate.
	FTM-ELIC-2000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 2000 users. Electronic licence certificate.
	FTM-ELIC-5000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 5000 users. Electronic licence certificate.
	FTM-ELIC-10000	Software one-time password tokens for iOS, Android and Windows Phone mobile devices. Perpetual licenses for 10000 users. Electronic licence certificate.
FortiToken 200	FTK-200-5	5 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-10	10 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-20	20 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-50	50 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-100	100 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-200	200 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-500	500 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-1000	1000 pieces, one-time passwork token, time-based password generator. Perpetual license.
	FTK-200-2000	2000 pieces, one-time passwork token, time-based password generator. Perpetual license.
FortiToken 200CD	FTK-200CD-10	FortiToken OTP hardware generator shipped with CD containing encrypted seed file — 10-pack.
	FTK-200CD-20	20 pieces one-time password token, time-based password generator shipped with encrypted seed file on CD. Perpetual license.
	FTK-200CD-50	FortiToken OTP hardware generator shipped with CD containing encrypted seed file — 50-pack.
	FTK-200CD-100	FortiToken OTP hardware generator shipped with CD containing encrypted seed file — 100-pack.
FortiToken 220	FTK-220-5	5 pieces, one-time password token, time-based password generator. Perpetual license.
	FTK-220-10	10 pieces, one-time password token, time-based password generator. Perpetual license.
	FTK-220-20	20 pieces, one-time password token, time-based password generator. Perpetual license.
	FTK-220-50	50 pieces, one-time password token, time-based password generator. Perpetual license.
	FTK-220-100	100 pieces, one-time password token, time-based password generator. Perpetual license.
