

# FortiVoice™ 200D/200D-T

## Voice Appliance for Enterprise Networks

The FortiVoice 200-series IP PBX voice solution gives you total call control and sophisticated communication features for excellent customer service and efficient employee collaboration. Powerful, affordable and simple, the FortiVoice 200D and 200D-T systems deliver the features and value of the proven FortiVoice product line to offices with up to 2000 phone users. FortiVoice phone systems include everything you need to handle calls professionally, control communication costs and stay connected everywhere.

### Built-in fundamentals

FortiVoice 200 systems include all the fundamentals of enterprise-class voice communications, with no additional licenses to buy or cards to install. Auto attendants, auto provisioning, line/extension appearance, ring groups, phone profile, call queue, call barge, multibranch integration and much more are built-in. FortiVoice systems are easy to purchase, easy to install and easy to manage, so you save the headaches that come with most enterprise phone systems.

### Key Features & Benefits

Digital lines	FortiVoice 200D-T supports both PRI (T1/E1/R2) digital lines and traditional analog lines.
Multibranch networking	Connects multiple locations, around the block or across the country with no long-distance charges. Directory synchronization among offices.
Rich call features	Line/extension appearance, call queue, call barge, phone profile, ring group, call recording, dialplan fall back, individual/group voicemail, and much more.
Flexibility	More call scheduling options, flexible number management, re-assignable extensions, and caller ID modification.
Ease of configuration	Visualized auto attendant configuration, built-in DHCP server, phone auto provisioning and web-based management UI/user web portal.
Comprehensive system monitoring	Real-time call status monitoring, call statistics, call logs, and call reports, and network traffic capture.

*The network voice solution from the network security experts*

- No licensing; built-in features, including auto attendants, music on hold, remote extensions and much more
- Web-based management and user interfaces
- Password policy enforcement and audit
- Real-time call status monitoring
- Call recording
- Line/extension appearance
- Call queue
- Call barge
- Auto provisioning
- Dialplan fallback

## User appeal

Your people will like it too. In addition to working with the user-friendly series of FortiPhones, the FortiVoice personal web portal lets your staff view their call logs, configure and manage their own messaging and access other features. Your employees get control over their phones, and your IT staff get a break from having to configure every little change.

## FEATURES

Automatic phone provisioning	Rule-based dialplan	External extension	SIP over TLS
